SUMMARY

I am in search of a career that well provide me with many opportunities to bring out the full potential of a company to take it to new heights. I am a very calm and interactive individual. Because of how relaxed I am I have no problem with working under pressure. My dream is to pursue a career in database administration.

PROJECTS

Class Program   **Spring 2016**

In my Data Structures class at Mansfield University I have worked on assignments like Fractal Listing where I created three triangles with a plus and minus sign at the bottom using Java. The more you click the plus button more triangle would appear and when you press the minus button the less triangles you saw.
